

ECO LITE TRAY

Japanese Patent No. 5507333

very LIGHT
&
very ECOLOGY

EX

TEMMA New collection

ECO LITE TRAY - super light and yet has high resistance to deformation

ECO LITE TRAY is a new original container with more cost-cutting and also less weight than those existing paper containers, using cardboard for flange where requires strength and thin paper for container body.

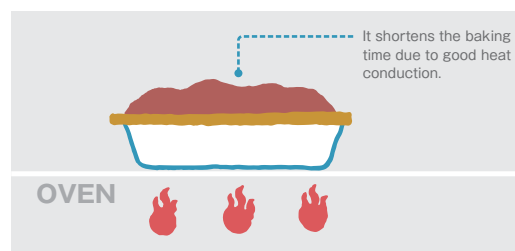

ECO-FRIENDLY product

We succeeded in decreasing the ratio of using materials compared to the same sized paper plates / trays. This is a next generation of eco-friendly paper container with more efficient use of resources.

Saving utility costs

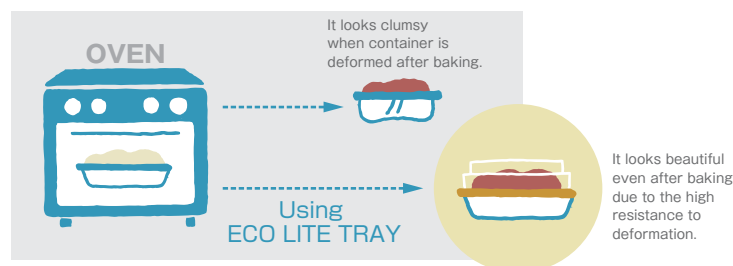

It shortens the baking time and also saves utility costs since ECO LITE TRAY has higher thermal conductivity than the same sized paper plates / trays due to using thin paper for container body.

※The above illustration is an image of oven. Please don't use over direct heat.

High resistance to deformation after baking

ECO LITE TRAY has high resistance to deformation after baking due to using cardboard for flange.
*matching lids are also available.

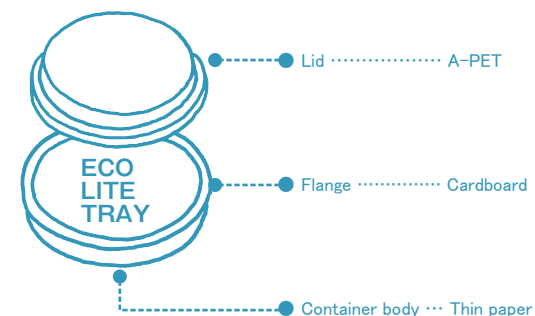

Cutting transportation cost and CO₂

It can cut the transportation cost and also CO₂ since ECO LITE TRAY is much lighter than the same sized paper plates / trays.

Japanese Patent No. 5507333

ECO LITE TRAY

ECO LITE TRAY is an unique product only from TEMMA.
Available as plates for bread, sweets and food, also for baking as well.

[Main use Baking, Cake & Food cup]

original cup collection

Ring Cup

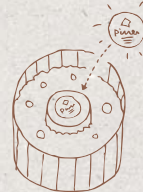

Ring cup

This new style of cup has been created by putting a tube in the center of our standard PET cup. Use it for donuts, cup cakes or savory breads. Let your creativity loose and produce some fun, eye-catching treats!

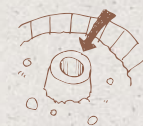

[Main use Baking, Cake cup]

Use the top effectively

Why not attach a sticker of the logo for your shop or the product to the top of the central tube?

Take advantage of the ring shape

The cup with a hollow tube makes the ring shape look more clearly.

※ Batter may leak through the seam joint of the tube with the cup depends on the viscosity of the batter. Please be sure to order a sample and test it before making your purchase.

See page 114

Enjoy two different flavors!

Two cups are installed in a single base, so customers can enjoy two flavors in one plate by cooking two different types of batter. It also makes your display more colorful!

Perforation for easy separation!

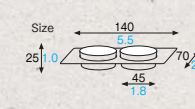

A perforation is in the middle of the base, so individual cakes can be separated too.

CUBE CUP

The cups are folded when delivering which saves space for storage. The each inner box contains 100 cups and 100 bottom papers.

The cups are one-touch forming design. The bottom paper is to prevent leakage of batter when using them for baking. Both the cup and the bottom paper are greaseproof.

Cube cup

The non-tapered, straight shape make it look exactly like a cube. These versatile cups are great for baking as well as for holding small food items or other products.

Greaseproof unbleached kraft paper is an original material only by TEMMA!

Up till now, unbleached kraft paper was thin and unsuitable for baking trays. In collaboration with paper manufacturers, TEMMA has developed a kraft paper with the strength and thickness needed for a baking tray which is also greaseproof and unbleached. The simplicity of the unbleached materials draws out the taste of your sweets and lets the ingredients speak for themselves.

Loaf tray (brun)

ST203N [3803006]
Loaf tray (brun)

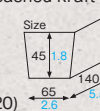

ST204N [3803007]
Loaf tray (brun)

Greaseproof unbleached kraft paper is an original material only by TEMMA!

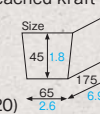

Up till now, unbleached kraft paper was thin and unsuitable for baking trays. In collaboration with paper manufacturers, TEMMA has developed a kraft paper with the strength and thickness needed for a baking tray, that is also greaseproof and unbleached. The simplicity of the unbleached materials draws out the taste of your sweets and lets the ingredients speak for themselves.

ST202N
Loaf tray

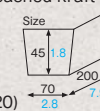

Material Greaseproof unbleached kraft
Function Greaseproof, Heat resistance
Capacity 470cc/15.9fl.oz
